

Assembly Instructions for the **BOTTLE BUDDY**[®] Water Storage System and Accessories

Bottle Buddy is a registered trademark of Tailor Made Products, Inc.

- **Important:** The Bottle Buddy is designed to be used on a firm, level surface. It is not designed to be used for storing bottled water on trucks or other moving vehicles.
- **Note:** When loading full bottles onto shelves, start from the bottom and load upwards until finished. When unloading full bottles, take down the top bottle on each stand and then each successive bottle downwards until empty.

Floor Protection Kit

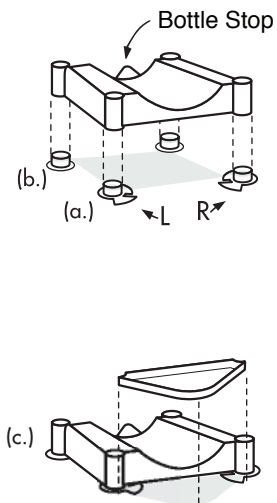

Please read ALL instructions before assembling.

Each Case Contains:

- Hook Feet x 2 (Marked R or L)
- Rear Feet x 2
- Floor Protection Tray x 1

1. Remove any water bottles from the Bottle Buddy water storage system.
2. Carefully tip back the empty Bottle Buddy system to place the feet into the bottom holes of the tray, or simply begin to attach the feet to the bottom tray before assembling the entire Bottle Buddy storage system.
3. Place the front foot (L) and front foot (R) into the front two bottom holes of any tray. (*Important - each tray has a front and a back. The back is indicated by the bottle stop; make sure each bottle stop is facing the same direction as you assemble.) The hook-like features should be facing towards each other when attached to the underside of the tray (figure a.) Place the rear feet into the two back holes of the tray. Gently tap the feet with a small rubber mallet (figure b.)
4. Snap the floor protector into the left and right hook feet (figure c.)

Note: The floor protector is easily removed for quick cleaning using the side finger handles.
